

Boerse Stuttgart Digital broadens institutional access to 60+ cryptocurrencies

- **Europe's leading crypto infrastructure partner continues to expand its modular one-stop shop for institutional clients**
- **Seven new cryptocurrencies are now available for trading and custody in a fully regulated environment**
- **The overall coin offering of Boerse Stuttgart Digital increases to 63 cryptocurrencies**

Stuttgart, March 24th 2026 – [Boerse Stuttgart Digital](#), Europe's leading crypto infrastructure partner, is expanding its portfolio. Seven additional cryptocurrencies can now be traded and securely held in custody within a fully MiCAR-compliant environment: Ethereum Name Service (ENS), Bonk (BONK), Jupiter (JUP), Pyth Network (PYTH), Dogwifhat (WIF), Popcat (POPCAT) and Mask Network (MASK).

With the expansion to over 60 cryptocurrencies, Boerse Stuttgart Digital is broadening institutional access and responding to the growing demand for exposure to a more diverse range of digital assets. Banks, brokers, and asset managers can now offer their clients an even wider selection of cryptocurrencies for trading and custody through Boerse Stuttgart Digital's fully regulated infrastructure solutions.

About Boerse Stuttgart Digital

Boerse Stuttgart Digital is the leading crypto infrastructure partner in Europe, offering a modular one-stop-shop for institutional-grade trading and custody solutions.
